

Join us for an amazing two days of learning, inner work, and play with the support of the Wild Earth Animal Essences. Daniel creates a space of healing where the essences, and the gifts of the animals, can truly be experienced. He brings the animal spirits to life in a loving and joyful way, and his teachings have a deep understanding of the hidden world of animal magic.

During the seminar, participants will have the opportunity to journey inward to connect with the animals and receive guidance for their lives. Daniel will supplement the individual and small-group activities with teachings, including discussions of many of the Wild Earth animal essences, their applications, and accounts of his personal experiences with the animals.

This seminar offers a wondrous blend of both left-brained learning and deep personal growth work -- a magical combination that will lead you inward to a deep connection with the animals and with yourself. Come prepared for an adventure!

## A Note from Daniel Mapel on the FREE April 10-11, Charlottesville, VA Workshop

Greetings!

After leading more than 30 international workshops about the animal essences, from Norway to Argentina, it has been a delight to begin offering my workshops closer to home. In each of the past two years I have led, with my wife with Mary and son Gabriel (10), my first seminars in Charlottesville, VA, not far from our home in the Shenandoah Valley. It has been such a joy and blessing to offer this workshop locally that in order to help celebrate our 15th anniversary we have scheduled a free workshop in Charlottesville for the weekend of April 10-11. Mary and Gabriel both join me in their excitement about creating this workshop together!

It is, quite frankly, simply amazing what happens during the course of this two-day workshop -- participants have the opportunity to learn so much, to make new friends, and journey into the depths of their own hearts to receive wisdom and guidance from the animals. It is a blessed time and blessed space where I am honored to guide and to witness people encountering the animals and experiencing deep healing, joy, play, and transformation.
